To whom it may concern.

Granada Home Technology

Is happy to state the following;-

Over the last three years we have completed a considerable amount of aerial installation business with Surefix Ltd, of 4, Ayton Road, Longwood, Huddersfield.

This work has varied between conventional domestic aerial installations and technically complex communal aerial systems, supplying large numbers of dwellings.

There has never been a single complaint, of any sort, from any job completed for us by Surefix. In fact we have received a number of complimentary letters and telephone calls commenting on their competency and their friendly, polite and professional attitude to their work.

On a number of occasions they have been placed in a position where they could have held my company to ransom over the charges that they levied for completing a particularly difficult task. Surefix have never taken advantage of this "vulnerability" and have always done an excellent job for a fair days pay.

I would be happy to give them aerial work of any type, in any area, for the most high profile client we do business with knowing full well that they will never let me down.

I cannot recommend them highly enough and am perfectly happy to vouch for their honesty, integrity, and willingness to do the job and to show my admiration of their absolute professionalism. Trust them with any job that they state they can do for you - they will never let you down.

Alan Gentle

Central Operations Manager
